

HEALTH PROGRAM FOR MOTORCYCLE EVENTS & RACES

The Athletic Motorcycle Federation of Greece has drawn up the specific Health Protocols, which concerns the safe riding of motorcycle racing, contributing to the effort of all of us, for the elimination of Covid-19 transmission.

AMOTOE, in cooperation with the Ministry of Health, and the General Secretariat of Sports in Greece will monitor constantly the dynamics of the epidemic and will adapt measures to new situations by issuing, whenever judged necessary, new instructions.

Given that motorsport itself does not increase the risk of transmitting the Covid-19 virus and given the distances of equipment and of the athletes (helmet-gloves), but the gatherings in sports facilities (tracks), are the situation that helps spread of the virus, we decided and apply, depending on the applicable provisions and in order to ensure the health of our athletes and staff who work in sports facilities, the following:

Before Races:

- The movement of athletes – executives – marshals – medical personnel etc. will be done according to the Health Protocols of the **Ministry of Health** and the Government concerning travel and you will find them at www.gga.gov.gr.
- The overnight stay of all the above will be done according to the Health Protocols of the **Ministry of Health** and the Government which concerns the accommodation in hotels and you will find them at www.gga.gov.gr.
- Athletes must print the document about Athlete's Medical privacy Record and with that must visit their doctor, who will complete it, archive it and will issue a certificate that states they do not have any symptoms of Covid 19 virus, no later than 3 days before each race. The same applies to technical staff, marshals, executives, etc.

Certificates will be kept in the race folder so that when they are requested will be available. Anyone who fails to submit this certificate is not allowed to participate.

Regarding the race venues:

- The races are organized in licensed venues, observing the health protocols of Athletic Motorcycle Federation of Greece, of the **Ministry of Health** and the Government, which are posted on their official websites AMOTOE and GGA.
- The arrival / departure at/from the sports venues will be done from a single entrance / exit point, which will be controlled by the facility's security personnel and the individuals in charge of the organization.
- Upon entering the sports venue it will be recorded in a special list of incoming - outgoing ONE LIST FOR EVERY DAY, name, contact details, entry time and exit, the existence of any symptoms and will be signed by all inbound to the sports venue. Anyone who denies this procedure is not allowed to enter.

- Entry is denied to those who have stated any of the symptoms mentioned in the form incoming - outgoing. The list will be archived, daily, with the person in charge of the venue in order to facilitate any necessary tracking. A copy will be sent immediately after the end of each day, (timed-match) to the email secretary@amotoe.gr. It is recommended that, where possible, thermo tests be performed on those entering the venue, with no entry for those with a high temperature with three measurements of 37°C and above. If a suspected COVID-19 case noted, it is recommended that he/she return home and contact their doctor.
- Athletes will use an open area with the use of a tent, or will use areas where allowed and follow the protocols. The minimum distance between two tents will be 2 meters.
- In the case that there are stable or mobile garages for changing tires, it is imperative that the health rules (mask-gloves-distances of 2 meters-disinfectants) be followed by all involved.
- The maximum number of allowable attendees is: 1 person per 12 sq.m. for the first 600 sq.m. of paddock area, and 1 person per 20 sq.m. for areas over 600 sq.m. All those who are in this specific area, without exception, must be wearing a mask and gloves.
- There should be a 70% antiseptic (or gel) antiseptic in visible areas of the venues. Toilets are recommended to be avoided, while sinks should always be equipped with liquid hand soap and disposable hand towels. The use of paper or disposable basin plastic covers are recommended, as is the availability of a solution bleach, according to the instructions of the protocol (homemade bleach in dilution 1:10, if used preparation of initial concentration 5%). In case of use of toilets, it is necessary to be disinfected often. The organizer will make sure that there are special disposal areas for used masks, in prominent places.
- An area (e.g. a locker room) can be used if needed to persons with COVID-19 symptoms so they can be temporarily isolated. It is recommended to remove them from the venue, isolation in his home. There must be communication with the Federation, the staff and his/her doctor, while ministry of health is notified in any case of a suspected case and it will undertake the tracking and providing instructions.

After entering the sports venue and starting procedures:

- Viewers are not allowed. Regarding journalists, camera men, photographers, etc., in order to enter the venue, prior accreditation is required by the Federation and Organization. Those interested should contact by sending an email to info@offroadteam.gr, info@greecerally.gr, secretary@amotoe.gr. Unconfirmed journalists, photographers, etc., are not allowed to enter the venue.
- The process of technical and administrative control will be done strictly, by category. All without exception must be wearing a mask, there are antiseptic solutions in prominent places and throughout each process, a distance of 2 meters must be followed between those present. The organizers are in charge to have signs for the relevant distance.
- There will be **no briefing** to the athletes in any competition. The documents of the information will be in print and distributed in the area where the administrative and technical control will be carried out. It is also recommended to announce it from a microphone through speakers. The results of the races will be in a specially designed space, - in a special case- where interested athletes can get them, keeping the distance of 2 meters.

- No awards ceremonies will be held to avoid overcrowding. The winners will receive their medals and diplomas, per race, untouched, by special configured space keeping the distance of 2 meters and wearing a mask.

THE USE OF THE MASK AND MAINTENANING A DISTANCE OF THE 2 METERS IS OBLIGATORY BY ALL AND EVERYWHERE FOR THE DURATION OF COMPETITIVE MEETINGS.

(Excluding the athletes during the race).

- Mandatory and strict observance of individual hygiene measures as well as **INDIVIDUAL RESPONSIBILITY** of all those involved in the process, this plays a decisive role in efforts from our Federation for the resumption of the racing activity.

We hope for everyone's cooperation, in order to safely restart our sport.
